Dr. Steven Hatfill: OPEN LETTER TO AMERICA

“This is the story of possibly the greatest corruption scandal in our country’s history”.

After being cancelled and banned by PR NEWSWIRE, Dr. Hatfill takes his findings DIRECTLY to the American people.

“This is the story of how petty bureaucrats and drug companies unjustly discredited an inexpensive FDA-approved drug that would have prevented COVID-19 hospitalizations and deaths, for political spite and financial gain. These perpetrators, who now hold more significant positions in government, need to be held accountable for over 500,000 American deaths and the disruption of our economy”.
